

ROLLIGON CORPORATION

THE STANDARD BY WHICH OTHERS ARE JUDGED

Rolligon Corporation designs and manufactures 14 models of off road, high capacity trucks. Features like all wheel drive, dry season-wet season tire interchangeability, totally amphibious capabilities and the industry's finest components make Rolligon the leader in the rubber tired, off-road, industry. When your job requirements call for rugged, low or medium ground pressure, rough terrain transportation, call for Rolligon. Site evaluations anywhere in the world. If you need to get there—we can do it.

Roughneck 4 X 4

6 X 6 Challenger—15 Ton Capacity

8 X 8 Super Brute, 40 Ton Capacity

Trucks Designed by Application Needs—Providing Extremely Low Ground Pressure, Amphibious Capabilities, All Wheel Drive Power and Years of Dependable Service

8 X 8 Concrete Truck

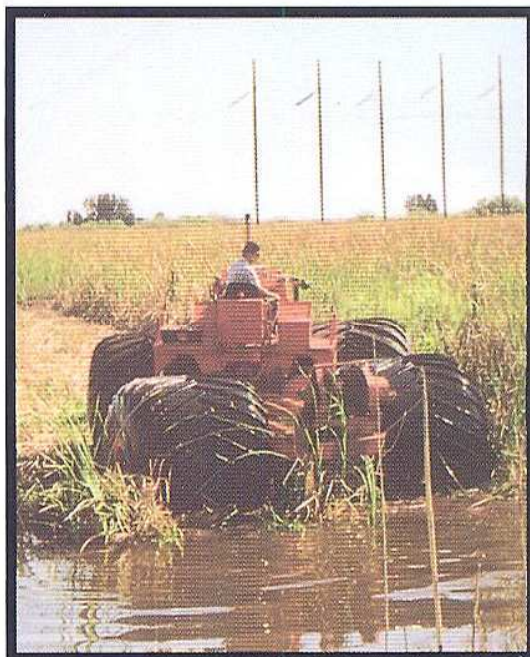

12 X 12 Flat Bed Truck

Across deserts or through swamps, Rolligon trucks equipped with large foot print, low pressure Rolligon manufactured tires enable heavy loads to be moved to location at minimal cost.

4 X 4 Hydraulic Implement Vehicle

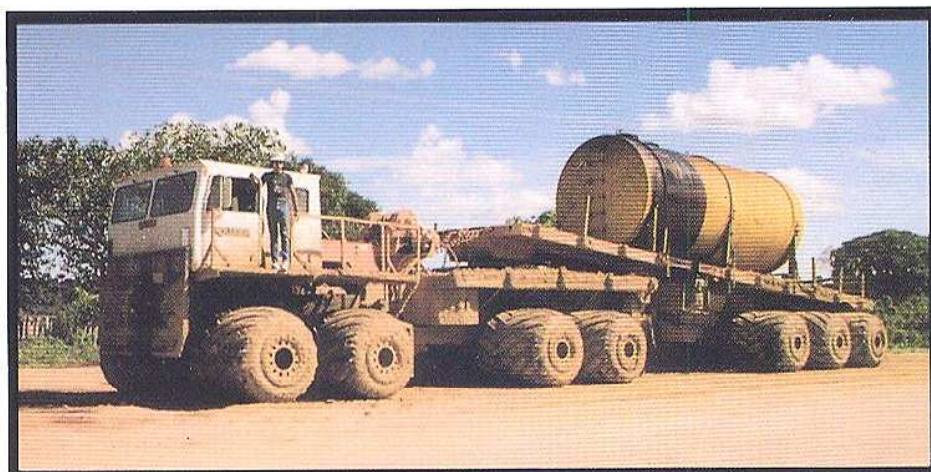

Very often important projects are designed to cross areas where roads and suitable terrain conditions do not exist. Special equipment is required to successfully complete the job. Men, materials and equipment must access those areas with safety, dependability, and at costs which allow project success. Rolligon Corporation has been providing industry with problem solving equipment since the mid 1950's.

4 X 4 Roughneck with Rolligon 72 X 68 Tires

Special equipment requirements are no problem for Rolligon's experienced staff of designers, engineers, and fabricators. Rolligon engineers and service staff have crisscrossed the globe evaluating project requirements, resulting in just the right truck to satisfy all requirements.

Full all wheel drive tractor trailer combinations allow 60 and 75 ton loads to be moved through critical areas. Available on Rolligon 72 x 68—28 V6 tires or 66 X 43-25 terra tires, this line of trucks is designed for wet-dry season operation where roads are minimal or do not exist. Trailers detach from the tractor which allows the tractor to act as a stand-alone support unit.

14 X 14 Khan, 60 Ton all Wheel Drive Tractor-Trailer Truck

14 X 14 Khan Mounted on Terra Tires

Amphibious 4 X 4 with Geophysical Drill

Rolligon produces geophysical drill rigs with drill depth capacities from 30 ft. (9m) to 1500 ft. (457m). When mounted on Rolligon 4 x 4 or 6 x 6 vehicles equipped with high flotation Rolligon tires, the unit becomes totally amphibious.

4450—4 X 4, 2 Ton Capacity

8 X 8 Brute I
25 Ton Capacity

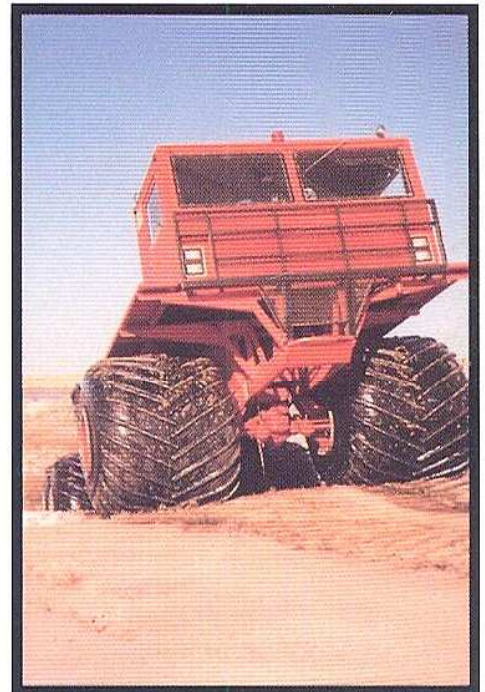

Low Ground Pressure 8 X 8 Tree Length Forwarder

Rolligon's unique ability to match proper operational characteristics with the correct tire for the terrain means superior results for the operator.

6 X 6 Tractor with Pipe Trailer for Pipeline Construction

6 X 6 Challenger Truck
